

# AUTOQUIP AUTOMATION

## Dispense Valve Lubricator

*Custom Component*

### **Use:**

Bolt-on accessory for Graco Precision Mix™ and ProMix™ high pressure manifolds.

### **Problem:**

The Graco Precision™ and ProMix™ dispense valves use chevron seals as packing. When dispensing moisture reactive coatings the valve seals fail prematurely due to crystallization on the seal edges.

### **Solution:**

Extend seal life by blocking moisture using the Autoquip Lubricator with standard throat seal oil (TSO).

### **Features & Benefits:**

- Improves overall system reliability and uptime
- Quick payback
- Easy to service
- Greatly reduces costly valve overhauls
- Provides a convenient method of using the built in lubrication port on the Graco dispense valve
- Speeds valve action for better ratio control
- Reduces ratio and overdose aborts
