

AUTOQUIP AUTOMATION

High Volume Solvent Scrubbing System

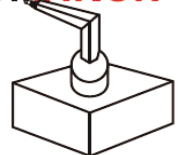

- Self contained system requires only supply of air and solvent for proper operation.
- Automatically mixes compressed air and solvent together to efficiently remove coatings from the inside of circulation lines.
- Automatically meters the correct amount of solvent into a compressed air stream for highly effective cleaning.
- Requires only supply air adjustment.
- Portable design for use throughout the facility.
- Costs Less To Operate - Vastly reduces solvent usage when compared flushing with straight solvent.
- Improves Quality - Resins remove significant amounts from inside tubing.

AUTOQUIP AUTOMATION

AQ 7057

Easy To Use:

- Connect a 3/4" air supply to the cart system.
- Install the solvent pick up tube in a proper solvent supply.
- Connect the outlet of the AQ 7057 SOLVENT SCRUBBER to the outlet of the supply pump (Valve off supply pump).
- Direct the circulation system return piping to a waste receptacle.
- Turn on the system.

Technical Data

- * 60 CFM (1.7m³/min) at 100 PSI (6.9 bar) (MAX)
- * Air inlet size: 3/4" NPT
- * Fluid outlet size: 3/4" NPT

Wetted parts:

- * 304 & 316 stainless steel
- * 6061 T6 aluminum
- * Teflon®
- * Kalrez®

*Loctite® is a registered trademark of the Loctite Corporation
Teflon® is a registered trademark of the Dupont Company.
Kalrez® is a registered trademark of the Dupont Company.*
